## COMPUTER SYSTEMS ENGINEER

## EXPERIENCE

**Oxygen Consultancy Limited (Remote) – IT Personnel Developer**
*Remote · Mar 2025 – Present*

- Developing and customizing Project Portfolio Management (PPM) software, including coding, testing, and debugging.
- Integrating the PPM system with other relevant IT systems and applications within the organization.
- Ensuring data accuracy, integrity, and security within the PPM system, including data migration and transformation.
- Monitoring system performance and optimizing the PPM system for efficiency and scalability.
- Providing technical support and troubleshooting for users of the PPM system.
- Keeping up-to-date with the latest PPM technologies, trends, and best practices.

**Knowledge Academy - Backend Development Trainee**
*Remote · Nov 2024 – May 2025*

- Completed 7-month intensive training focused on Node.js, Express.js, MySQL, and MongoDB.
- Built RESTful APIs and backend systems following MVC architecture and clean code principles.
- Designed scalable database schemas and implemented user authentication and CRUD operations.

**Gaza Sky Geeks - Frontend Developer Trainee**
*Remote · Jan 2024 – Nov 2024*

- Participated in a 90-hour training program focused on React.js, Next.js, and TypeScript.
- Translated Figma designs into responsive, pixel-perfect UI using Tailwind CSS.
- Collaborated with teams to build real-world web applications with modern front-end stacks.

## CERTIFICATIONS

- DigComp Hub MOOC on the DigComp Framework, Mar,2024.
- Generative AI and Digital Resources, Mar,2024.
- Artificial Intelligence MOOC, Apr,2024.
- Internet of Things MOOC, Apr,2024.
- 90-hours React & NextJS Training, Nov, 2024.
- Problem Solving & Decision Making in the Workplace, Feb, 2025.
- Delegation, Coaching, and Mentoring Skills, Feb, 2025.
- Back End 'Node JS', May, 2025.
